Get auto re-entry into all slots forever.

BIGGEST AUTO EVER

What you should know about Pandatron...

Registration

- 👉 The slots of P4 & P5 are bought together and not separately. Accordingly, the start to the platform is generally 200 Tron (TRX). You can all slots at once or in hierarchical order i.e. from the smallest to the largest, for example; it is impossible to buy a third slot without having the second one open.

Upgrade

- 👉 Is the opening (purchase) of the next slot of a more expensive level. It is done once at the slot. The payment goes to your superior partner, provided that he/she has a slot of this level.

There is enough income from each slot to repeat the slot of the same level and buy the slot of the next level. You decide whether to purchase the next level slot! A repeat of the slot occurs automatically. If the next slot is not opened for you, then from the second round, after repeat, all payments will be directed to a higher partner.

When you buy the necessary slots, then at the next repeat your partner will take a place under you, and each repeat will take place under again.

What you should know about Pandatron...

Start Recommended

👉 It is recommended to activate minimum of first four slots at the start. This ensures good initial results. Of course, just starting with a slot could quickly lead to overflows if your structure develops quickly.

The most successful partners use strategies for starting from at once. They set such an example themselves and their partners do the same. As a result, their turnovers grow faster. Many start from seven slots at once, some even ten or more.

Overflows, Overtaking & Returns

👉 You can overtake your superior partner by opening slots which they have not yet opened. In this case, you get up to his/her superior partner, the closest who has such level of the slot, and the income goes to him/her. If he/she doesn't have this slot available then in the same way you are already overtaking two superiors until the system finds a partner who has already activate this slots of this level.

Referral link returns to the partner. This means that when your superior buys this slot, then the next repeat, you will again take a place under him.
